

HUMAN ISLET TRANSPLANT LABORATORY

National Organ & Tissue Donor Awareness Month

Did you know that by donating, you can save the lives of 8 people! BeADonor Month occurs every April across Canada. It can be a rewarding way to give back to your community. The best part about BeADonor Month is that everyone is welcome to participate. What's important is that your event is helping to raise the awareness of organ and tissue donation and transplantation. So help raise awareness for organ and tissue donations by signing your donor card. Visit <http://www.signezdon.gouv.qc.ca/> to truly make a difference in someone's life.
